SUMMARY

Innovative AI & Python Developer (3+ years) specializing in architecting autonomous Multi-Agent systems, RAG pipelines, and Vector DBs using LangGraph, Pydantic AI, and LangChain. I blend expertise in Flask, PostgreSQL, and OpenCV to build scalable, secure applications, transforming complex image processing and data challenges into intelligent Agentic AI solutions.

EXPERIENCE

AI & Python Developer

01/2024 - Present

Micropro Software Solutions Ltd.

Nagpur, India

- Developed and delivered multiple AI-driven solutions including AI integration in HIMS, DB-Agent for reporting, OCR-based PDF data extraction, Text Classification & Voice-to-Text, and an AI Teacher platform.
- Designed and implemented autonomous Multi-Agent systems using LangChain, LangGraph, and Pydantic AI, enabling complex workflow orchestration and intelligent decision-making within live Flask applications.
- Implemented Retrieval-Augmented Generation (RAG) with PostgreSQL to improve LLM response accuracy, contextual understanding, and structured data reliability.
- Enhanced MultiModal AI capabilities by integrating OpenCV based image processing and deploying containerized AI solutions with Docker, ensuring scalable, secure, and high-performance execution environments.

Associate Python Developer

01/2023 - 01/2024

Vitric Business Solutions Pvt. Ltd.

Nagpur, India

- Contributed to live Python web development and potentially use Django, testing, and issue resolution, enhancing user experience and optimizing functionality for applications managing in a PostgreSQL database.
- Participated in team meetings using agile methodologies for tracked tasks in JIRA, discussing progress, sharing insights, and coordinating tasks for efficient project management.
- Adhered to project guidelines and quality standards, ensuring the success of Python web development projects and maintaining code in GitLab / GitHub.

SKILLS

Technical & Functional Skills

- Generative AI & Agents:** Agentic AI, Multi-Agent Systems, RAG (Retrieval-Augmented Generation), LangChain, LangGraph, Pydantic AI, Vector Databases.
- LLMs & Models:** OpenAI API (GPT-4o), Anthropic (Claude), Gemini, Llama 3, Ollama, Hugging Face.
- Languages & Frameworks:** Python, FastAPI, Flask, Django.
- Core AI & Vision:** Computer Vision, OpenCV, Image Processing, NLP, Data Extraction.
- Databases:** PostgreSQL, Vector DBs (ChromaDB).
- Cloud & DevOps:** AWS, Docker, Git/GitHub, JIRA.

EDUCATION

MCA | 7.81 CGPA

Dec 2021 – Jul 2023

G.H. Raison Institute of Engineering and Technology, Nagpur, India

BCCA | 7.92 CGPA

Aug 2018 – Aug 2021

City Premier College, Nagpur, India

CERTIFICATIONS

Tata Group Data Analytics Job Simulation

August 2025

AI, NLP, AI Strategy Design, Python, Analytical Reporting, Data Interpretation

BCG GenAI Job Simulation

May 2025

AI, NLP, Chatbot, Python, Data Extraction
